Journal of the National Comprehensive Cancer Network Special Issue on C3I Working Group Discussions

- The C3I Working Groups center around five areas: (1) diversity, equity, and inclusion; (2) family and social support systems; (3) implementation science; (4) sustainability; and (5) telehealth. Since the launch of the Working Groups, each group has met monthly to discuss the relevance of their focus on smoking cessation for patients with cancer who smoke, how C3I sites are addressing each area of focus, and a relevant research and practice agenda. The results of these Working Group meetings and discussions are presented in this special issue. Available from:
