Implementation Science

## CONTEXT AND EQUITY ACTION GROUP

## DISSEMINATION OF TRAINING AND OTHER RESOURCES

- A range of training, databases, toolkits, etc. does exist, but new and early career investigators may not know where to find them.
- Potential public goods:
  - Consolidation/Central repository
  - Dissemination at non-IS conferences
  - NCI minilab

## EQUITY MEASURES AND STUDY DESIGN

- How is equity being measured and integrated in current IS research? How can it be integrated in study design?
- Potential public goods:
  - Lit review
  - Engage community members to develop/improve measures

# INTEGRATE NARRATIVES INTO RESEARCH

- Go beyond interviews and focus groups in qualitative research
- Potential public goods:
  - Webinar outlining other methods
  - Case studies
  - Lit review

# INCLUSIVE LANGUAGE AND TERMINOLOGY

- Highlight historical context of commonly used language, reach a wider audience
- Potential public goods:
  - Webinar focused on “stakeholder” alternatives (or webinar series addressing other terms and their history)
