

Effects of Tobacco Policy on Youth Tobacco Use

*Presenter: Jean Forster, Ph.D., M.P.H., Professor, Division of Epidemiology,
University of Minnesota, Minneapolis, Minnesota*

Evidence has accumulated over a number of years that tobacco policies can have direct and indirect effects on youth tobacco use. This presentation will address the research evidence for various policy approaches to reducing adolescent tobacco use, including price, restricting access, and tobacco-free policies, and will also identify priorities for future research in this area.
