

Capacity Building

Presenter: Jeanette Noltenius, Ph.D., M.A., Vice President, Rick Swartz and Associates, Washington, DC

The issue of Capacity Building will be addressed from the perspective of community-based organizations and their need for partnering with researchers in participatory research models. It will also address the specific needs CBOs have in linking tobacco control to other chronic diseases such as cancer in their programs and provision of daily services. The importance of leadership development, training, and mentorship will also be addressed. Existing programs will be highlighted and examples of successful partnerships will be shared.
