This monograph is the result of a conference and set of analyses commissioned and funded jointly by the National Cancer Institute and the Tobacco Control Section of the California Department of Health Services. The conference was held on May 24 and 25, 1999, in San Diego, California. Draft sections of this volume were subjected to peer review and revision, and the resultant draft of the entire volume was also subjected to peer review and revision.

The senior scientific editor for this monograph was David M. Burns, M.D., Professor of Medicine, University of California San Diego, San Diego, California. Richard H. Amacher was the managing editor of the volume and project director for the KBM Group Inc., Silver Spring, Maryland, who contracted with the National Cancer Institute to produce this volume. William Ruppert, M.S., Health Program Specialist, Tobacco Control Section, California Department of Health Services, Sacramento California, was the project officer for the contract with the Tobacco Control Section, California Department of Health Services.
