Follow-Up Care Use and Health Outcomes of Cancer Survivors (FOCUS) Study

Conducted by:

NATIONAL CANCER INSTITUTE

And

NORTHERN CALIFORNIA CANCER CENTER

Los Angeles County Cancer Surveillance Program

CONFIDENTIAL
INTRODUCTION

Individuals treated for breast, prostate, colorectal, endometrial, and ovarian cancer represent a major portion of the growing population of cancer survivors. Despite this, we know relatively little about the medical follow-up care experiences of this population after completion of cancer treatment. In addition, we are only just beginning to learn about the long-term (chronic) or late (delayed) impact of cancer treatments on individuals' health and well-being. With support from the National Cancer Institute, the Los Angeles County Cancer Surveillance Program and the Northern California Cancer Center are conducting a questionnaire study of survivors of breast, prostate, colorectal, endometrial, and ovarian cancer. You have been selected to participate in this important research study. This information will allow us to identify areas where improvements in quality of care for cancer survivors are needed.

This survey booklet contains questions about your cancer treatment(s), follow-up medical care, health status after cancer, experiences and interactions with your doctors and other health care providers, your satisfaction with the care received, and your current health behaviors and practices. We know of no better way to learn about these issues than to ask cancer survivors themselves.

There are no right or wrong answers, so please respond by giving the answer that best describes your situation. You may find some of the questions to be personal or difficult, and you may not have thought about some issues before. **Even if you feel you must skip a question, please indicate this by writing "SKIP" in the left margin, and proceed to the next question. Your answers to other questions will still be important to us and we will appreciate your responses very much.**

All of the information you provide is **confidential** and will not be disclosed to your health care provider or others. The information obtained will be analyzed as grouped data without any personal identification. When you are completing this survey, if any issues concern you about your health, please discuss these with your health care provider. You are also free to contact us by telephone or mail to discuss any issues related to the survey material. If you are from the Los Angeles area and have any questions, please contact: the Los Angeles Site Principal Investigator of the study, Dr. Ann Hamilton, at 323-865-0434, or the Study Coordinator at 323-442-2712. Their address is: FOCUS Study, Los Angeles County Cancer Surveillance Program, 1540 Alcazar St., CHP 204, MC9007, Los Angeles, CA, 90089-9007. If you are from Northern California and have any questions, please contact: the Northern California Site Principal Investigator, Dr. Ingrid Oakley-Girvan at 510-608-5045, or the Study Coordinator Susan Wolff at 510-608-5046. Their address is: Dr. Ingrid Oakley-Girvan (FOCUS Study), Northern California Cancer Center, 2201 Walnut Avenue, Suite 300, Fremont, CA 94538.

We are very grateful to you for the time you will be taking to complete this survey and for helping us to learn how to improve the lives of all cancer survivors. After completing the survey, **please mail it back to us in the enclosed postage-paid envelope.**

Thank you.
PLEASE READ THESE INSTRUCTIONS CAREFULLY

GENERAL INSTRUCTIONS

• Answer each question as best you can. Please do not leave any question blank. If you feel you must skip a question, please indicate this by writing "SKIP" beside the question, or by putting an "X" over the question number.

• Please fill in the oval next to you answer completely using blue or black ink.
  
  **Example:** Fill in ovals completely, like this: ☐ Yes
  Not like this: ☐ Yes Or this: ☐ Yes

• Please follow any instructions that direct you to the next question.
  
  **Example:** ☐ No ➔ GO TO Question A8

• For a question with a line after it, please write the specific information on the line provided.
  
  **Example:** ☐ Other, please specify: ________________ cardiologist

• Mark only one response for each question, unless directed to "PLEASE FILL IN THE OVALS FOR ALL THAT APPLY." For those questions, please mark every response choice that applies to your situation.

• When you are asked to provide a date (for example, when you started your cancer treatment), please provide an approximate date if you cannot remember the exact date.

• As much as possible, please try to answer all the questions in one sitting.
SECTION A. Cancer and Treatment History

A1. Today's date: __________/________/________  
    Month  Day  Year

A2. What is your birthdate?: __________/________/________  
    Month  Day  Year

A3. Are you male or female?

A5. When was the first time that a doctor or other health care professional told you that you had cancer?  
    Month: ________  Year: _______________

A6. What type of cancer were you FIRST diagnosed with? Some individuals may have been diagnosed with more than 1 cancer, or may have experienced a recurrence. In either of those cases, please mark the box with the name of your FIRST cancer diagnosis:  
    • Breast  
    • Prostate  
    • Colon or Rectum  
    • Ovary  
    • Endometrial  
    • Other, please specify: ________________________________
A7. At any time since you were diagnosed with your FIRST cancer, did a doctor or other health care professional tell you that your FIRST cancer had come back (that is, you had a recurrence)?

○ No  ➔  GO TO Question A8
○ Yes

A7a. If Yes: How many times have you had a recurrence of your FIRST cancer?

○ One time
○ Two times
○ Three or more times

A7b. What was the approximate date of your most recent recurrence of your FIRST cancer?

Month: _________  Year: __________________

A7c. Have you completed cancer treatment for your most recent recurrence of your FIRST cancer?

○ No
○ Yes

A8. At any time since you were first diagnosed with cancer, did a doctor or other health care professional tell you that you had developed a second cancer (a second cancer is a cancer that is different from your first cancer, for example, ovarian cancer after breast cancer, or a second cancer in the other breast)?

○ No  ➔  GO TO Question A9
○ Yes

A8a. If Yes: How many times have you had a "second" cancer?

○ One time
○ Two times
○ Three or more times

A8b. What was the approximate date of your most recent "second" cancer?

Month: _________  Year: __________________
A8c. Have you completed treatment for your most recent "second" cancer?
   ☐ No
   ☐ Yes

A9. Did you ever receive any surgery as part of your cancer treatment? Please DO NOT consider any biopsy you had or insertion of medication ports such as a Hickman catheter to be surgery.
   ☐ No  ➔ GO TO Question A10
   ☐ Yes

A9a. IF YES: On what part(s) of your body did you have surgery?
   ☐ One Breast

A13. **To the best of your knowledge**, are you now **free of cancer** (that is, **at this time**, your cancer is in remission)?

- **No**
- **Yes**
- **Do not know**
Cancer survivors often see a doctor for follow-up care after their cancer diagnosis. The reasons for this care could include getting follow-up medical tests, treating symptoms and treatment related side effects, as well as getting additional therapy. These next questions are about your experience with getting follow-up care after your cancer treatment.

**B1.** At any time since you were first diagnosed with cancer, were you ever told by any of the doctors that treated you for cancer that you needed regular follow-up care and monitoring even after cancer treatments were over?

- No  ➞  GO TO Question B2
- Yes

**B1a.** IF YES: Were the reasons for receiving this follow-up care discussed with you?

- No, did not discuss  ➞  GO TO Question B2
- Yes, discussed somewhat
- Yes, discussed in detail

**B1b.** IF YES: Please mark all the reasons for follow-up care after cancer that your doctor discussed with you. (PLEASE FILL IN OVALS FOR ALL THAT APPLY)

- To check for a recurrence of your original cancer.
- To receive additional treatment for your cancer if needed.
- To determine if you have developed any health problems as a result of your cancer or its treatment.
- To receive treatment for any symptoms or side effects of treatment.
- To receive a routine physical exam.
- To receive any **screening test for other cancers** (including such tests as a mammogram or Pap smear for women, colonoscopy, sigmoidoscopy, stool check for blood, or PSA test or digital rectal exam (for men))
- To receive test or exams for non-cancer diseases such as diabetes, heart disease, hypertension, or
- To obtain a referral to other specialist(s).
- Other, please specify: _______________________________
B1c. Which of the following reasons do you consider to be the most important one for receiving follow-up care after cancer? (SELECT ONLY ONE)

- To check for a recurrence of your original cancer.
- To receive additional treatment for your cancer if needed.
- To determine if you have developed any health problems as a result of your cancer or its treatment.

- Other, please specify: ________________________________

B2. Has a doctor or health care professional ever discussed with you what late or long-term side effects of cancer treatment (chemotherapy drugs, radiation or other treatments) you may experience over time?

- No, did not discuss
- Yes, discussed somewhat
- Yes, discussed in detail

B3. At the completion of your cancer treatment, did you receive a written summary from your doctor(s) that mentioned details of the treatment you had received and provided other important details regarding your cancer care?

- No  →  GO TO Question B4

- Yes  →  B3.a. IF YES: Can you easily find the summary if needed?
  - No
  - Yes
  - Not Sure  
  
  GO TO Question B5

B4. Would you have liked to receive a written summary from the doctor(s) treating you for cancer regarding the cancer treatment(s) you had received and other details of your cancer care?

- No
- Yes
- Not sure
B5. About how many months or years has it been since you spoke by telephone or in person with the doctor(s) at the clinic or hospital where you received all or most of your cancer treatment for your cancer, or received a checkup at the clinic or hospital where you were first treated for cancer?

- Within the past year (12 months)
- Between 1 year and less than 2 years ago
- Between 2 years and less than 3 years ago
- Between 3 years and less than 4 years ago
- 4 years ago or more

Next we are asking about any follow-up care you received to specifically monitor your cancer and any subsequent effects from it or from your treatment. We refer to this as your cancer-related follow-up care. Some survivors see the same doctor for their regular medical care and cancer-related follow-up care, while others see different doctors.

B6. Since you were diagnosed with cancer, have you ever seen a doctor for cancer-related follow-up care?

- No
- Yes

B6a. IF NO, What are the main reasons you did NOT see a doctor for cancer-related follow-up care?

(PLEASE FILL IN OVALS FOR ALL THAT APPLY)

- I felt I didn't need follow-up care
- My doctor(s) told me I didn't need follow-up care
- Cost too much OR insurance didn't cover it
- Didn't know a good cancer doctor
- It made me anxious or worried
- Getting to the doctor was hard
- I didn't have the time for it
- It was too difficult to schedule an appointment
- Child care was a problem
- I didn't know about it
- Other, please specify:

**Section C: Preferences For Cancer-Related Follow-Up Care**

For the following questions, we would like you to think about how you would prefer to make medical decisions about your cancer-related follow-up care, IF they were to be made AT THIS TIME.

**C1.** From the following five options, please mark the one that best describes your preference for how medical decisions about your cancer-related follow-up cancer care should be made. Such decisions could include what follow-up medical tests you should get to check for cancer or other illnesses, how your symptoms and side effects should be treated, whether existing medications need dosage changes or need to be stopped, etc.

- I would prefer to make the decisions with little or no input from my doctor(s)
- I would prefer to make the decisions after seriously considering my doctor’s opinion
- I would prefer that my doctor(s) and I make the decisions together
- I would prefer my doctor(s) to make the decisions after seriously considering my opinion
- I would prefer my doctor(s) to make the decisions with little or no input from me

**C2.** If at this time, you and your cancer-related follow-up care doctor(s) had to make any medical decisions about your follow-up cancer care, how confident are you that you would be able to…
