

## Training Opportunities Within the Division of Cancer Control and Population Sciences

### Become a Fellow

The Division of Cancer Control and Population Sciences (DCCPS) hosts different types of fellows throughout the year. The program has opportunities for people at most levels of educational training, from high school students up to postdocs. Research areas include:

- Epidemiology and genomics
- Behavioral research
- Healthcare delivery
- Surveillance
- Implementation science
- Big data
- Survivorship
- Health disparities

Fellows work with a mentor on research projects, literature reviews, data analyses, presentations, and/or manuscript preparation. Fellows receive a monthly stipend, fully covered health insurance benefits, and a commuter subsidy.

Richard P. Moser, Ph.D., is the Training Director for the Division of Cancer Control and Population Sciences at the National Cancer Institute (NCI). Please contact Dr. Moser for more information about current or future openings.

### Fellowship Opportunities

Please visit individual program sites for more information and open fellowships:

**Behavioral Research Program:** [cancercontrol.cancer.gov/brpcareer](http://cancercontrol.cancer.gov/brpcareer)

**Surveillance Research Program:** [surveillance.cancer.gov/jobs](http://surveillance.cancer.gov/jobs)

**Healthcare Delivery Research Program:** [healthcaredelivery.cancer.gov/about/jobs.html](http://healthcaredelivery.cancer.gov/about/jobs.html)

**Epidemiology and Genomics Research Program:** [epi.grants.cancer.gov/jobs](http://epi.grants.cancer.gov/jobs)

For information regarding training grant funding from NCI, go to [cancercontrol.cancer.gov/funding\\_career.html](http://cancercontrol.cancer.gov/funding_career.html).

### Types of Training and Fellowships at NCI

**Cancer Research Training Award Program:** Open to high school, post-baccalaureate, post-master's, postdoctoral, or post-medical students. Rolling application deadline.

**Cancer Prevention Fellowship Program:** Open to postdoctoral, post-medical, or J.D. students. Applications accepted between May 1–August 25, 2018.

**Health Communications Internship Program:** Open to post-master's or postdoctoral students. Check [hcip.nci.nih.gov](http://hcip.nci.nih.gov) for 2018 dates.

**Presidential Management Fellows Program:** Open to post-master's, postdoctoral, post-medical, or J.D. students. This fellowship is sponsored by the U.S. Office of Personnel Management and has different specifications. Refer to [pmf.gov](http://pmf.gov) for details.

**Summer Internship Program:** Open to high school, undergraduate, graduate, or professional students. Applications for 2018 accepted until March 1, 2018. Information about the program is available at [training.nih.gov/programs/sip](http://training.nih.gov/programs/sip).
