Ready to help us tackle the most challenging research questions?

ICF is a global consulting services company with over 5,000 specialized experts. We come from different fields. Different backgrounds. Different countries. But our people have this in common: a passion for making a positive impact on the world.

To drive improved health outcomes, we've implemented health surveys, research, and evaluation projects large and small.

Our socially-minded researchers use their keen analytical skills to effect real-world change. Doggedly tracking down insights while sifting through large-scale datasets, this team exemplifies tenacity.

ICF brings a global lens to all that we do. We directly improve living situations for people around the world; and every member of our research team contributes to that mission.

ICF was named on Forbes' list of "Best Places to Work" and "Best Consulting Firms" among mid-sized companies. We are an

equal opportunity employer that values diversity at all levels.

We cover a broad range of quantitative and qualitative health-related topics:

- Chronic Disease Prevention
- Sepsis
- Cancer
- Aging
- Women's Health
- Community Health
- Infectious Diseases
- Maternal and Child Health
- Obesity
- HIV/AIDS
- Smoking Cessation
- Opioid Addiction
- Alcohol Addiction
- Drug Addiction

Welcome Message

Thank you for attending the Society of Behavioral Medicine’s 40th Anniversary Annual Meeting & Scientific Sessions! We have an exciting lineup of speakers and events that exude the theme of “**Leading the Narrative.**” Here are some special highlights!

- A **Welcome Reception and Anniversary Ceremony** on Wednesday evening will celebrate our past, present, and future. The inspiring and entertaining ceremony will be followed by exciting networking sessions on the topics of science communication, industry careers, and health policy advocacy.
- An incredible line up of plenary speakers and panels on topics including social determinants of health, the spread of health misinformation online, health and technology megatrends, patient engagement, behavioral economics, open science, science communication, and more!
- Saturday will be **open to the public**. Invite your family, friends, and colleagues to Saturday’s events, which were especially planned to be equally exciting for our members and the public.
- We will also host **Mid-Career Lab Management Tools**, a Saturday session with practical advice on managing research labs as well as tech tools to help facilitate sharing documents and data, tracking projects like grant applications and manuscripts, and transitioning away from email.

We hope that you will leave inspired and energized with ideas on how to enhance the impact of your work. We look forward to celebrating SBM’s 40th with you. Wishing you all a productive, healthy, and inspiring conference!

Open Science at SBM

Scientists in many fields are using a variety of open science practices to increase the transparency, reproducibility, and verifiability of their work. This year, SBM recognizes those who utilized open science practices such as pre-registering study designs and analysis plans, and sharing study materials or data in via an open access repository. Keep an eye out for the following badges next to presentations in the program and throughout the meeting.

Continuing Education Credits

Satisfactory Completion Learners must complete an evaluation form to receive a certificate of completion. Your chosen sessions must be attended in their entirety. Partial credit of individual sessions is not available. If you are seeking continuing education credit for a specialty not listed below, it is your responsibility to contact your licensing/certification board to determine course eligibility for your licensing/certification requirement.

Physicians / Nurses In support of improving patient care, this activity has been planned and implemented by Amedco LLC and the Society for Behavioral Medicine (SBM). Amedco LLC is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Credit Designation Statement – Amedco LLC designates this live activity for a maximum of 23.25 *AMA PRA Category 1 Credits™* for physicians and 23.25 contact hours for nurses. Learners should claim only the credit commensurate with the extent of their participation in the activity.

Nurse Practitioners The American Association of Nurse Practitioners (AANP) recognizes the Accreditation Council for Continuing Medical Education (ACCME) and the American Nurses Credentialing Center (ANCC) as approved accreditors and allow reciprocity for AANPCP continuing education credit.

Psychologists This course is co-sponsored by Amedco and SBM. Amedco is approved by the American Psychological Association to sponsor continuing education for psychologists. Amedco maintains responsibility for this program and its content. Maximum of 23.25 hours.

Dietitians You can earn a total of up to 23.25 CPEUs by attending this conference. Please see the PDP guidelines at <http://www.cdrnet.org> for further explanation of requirements.

Certified Health Education Specialists Application has been made to the National Commission for Health Education Credentialing, Inc. (NCHEC) for CHES Category I continuing education contact hours (CECH).

Postdoctoral Training Program in Cancer Prevention and Control

Now accepting applications for 2019

The NCI-funded Training Program in Cancer Prevention and Control at the Wake Forest Baptist Comprehensive Cancer Center is now seeking outstanding postdoctoral candidates for 2019.

Our program prepares trainees to become independent researchers in the field of cancer prevention and control with a particular focus on cancer survivorship, healthy lifestyles, and cancer care delivery. Key resources are also provided by our Clinical and Translational Science Institute and NCI-funded Community Oncology Research Program (NCORP) Research Base.

The program offers:

- 2-3 years of funding
- Health insurance
- Opportunities for publications from existing data
- Competitive salary
- Travel allowances
- Research support
- Tuition support

The Program seeks individuals with recent doctorates (PhD, DrPH, MD, DO) in health-related areas, as well as experienced individuals wishing to more fully develop their research in cancer prevention and control. To be eligible, you must be a U.S. citizen or permanent resident.

Application Requirements: How to Apply:

- Cover letter including a statement of research interests and how the training program will further your career in cancer prevention and control
- Curriculum vitae
- 3 letters of recommendation

Inquiries should be sent to either of the Program Co-Directors, Dr. Nancy Avis at navis@wakehealth.edu or Dr. Kristie Foley at kfoley@wakehealth.edu.

Applications should be submitted to Alex Dest, Program Coordinator, at adest@wakehealth.edu.

Applications will be accepted until the positions are filled, although applications submitted before **April 1st** will have highest priority.
